EMAIL TURNS We can email game reports in all our games. It's quicker and more reliable. As a PDF attachment a game report should be readable on any sort of computer and printable on any sort of printer with a minimum of hassle, and we're currently adding bookmarks to make it easier to find your way around your report if you're viewing it on-screen.

FAX I will shortly be disconnecting the fax number and machine. It's rarely used, and ditching it will save around two hundred pounds a year. More if I can get anything back by selling off the machine (and the backup machine).

WEBSITES The sidetracks.co.uk website has waiting lists, progress reports, rules updates, downloads and information about using the email system. Our main "static" info & stuff is at pbmsports.co.uk, while the softsim.co.uk website has credit cards and online turnsheets. Anyone can see the first two, but for softsim you need to ask for a user name before you can get into it.

TIPPING COMPETITION In the pursuit of de-cluttering there will be no tipping competition this season. It's more trouble than it's worth, especially as it doesn't seem to be working. We'll look at bringing it back in future if/when there are more players involved to make it worthwhile.

SIGNING BONUS & COMPENSATION I am making two changes to the rule for the bonus paid when someone signs a player who previously played for your team. This will no longer apply on overseas players (they're just hired guns on short contracts - you don't deserve anything back when they move somewhere else) or on players who were signed for less than 10 LPs.

This should eliminate the business of signing players on very low contracts in the hope of making a profit and making speculative signings of overseas players, and encourage everyone to stick to team building - I will probably increase the rate at which player values rise for making runs and taking wickets to encourage you to buy talent rather than just speculate.

Kolpak players will be classified as overseas players unless/until they are actually selected for England.

SQUAD SIZES I will also look at increasing squad sizes slightly, as with central contracts keeping England players out of action there are more players inactive than there used to be in any given week, and it's become more difficult to raise a full team from a squad of eighteen.

THIS SEASON The tour sides are Sri Lanka (three tests) and Pakistan (four). Each has a four-day game against England A as well and I'll use both of those provided they stick to first class rules. Each has a game against a county side as well, but we'll ignore those (they don't fit in with the rest of the fixtures). We have 21 weeks of stats with a very long gap during the Twenty20, so I'll run the averages week during the gap instead of at the end of the season.

EMAIL ORDERS Everyone is using the website for their orders, so the deadline means "any time on or before deadline day". The usual mid-day restriction doesn't apply, because Cricket Stats doesn't run on deadline day.

RULES CHANGES Keepers are now allowed in the all-rounder slot. Signing bonuses DO apply when you re-sign one of your own players (you get back half the value of his new contract, same as if someone else signed him). Income is now 50 LPs for a win, 80 LPs for a loss and 70 LPs for a draw or pre-season game. Yes, the exclusion of games against the students is a rules change.
